Bought the complete pack during the winter sale and this came with it, costs like a quarter during sales... You get 44 high quality images that can all be used as wallpapers for your desktop.

In this "DLC", you are granted high quality cosplay photos of the two main girls in the game. There is 24 images of the main girl, 1-14 are her in her main outfit and 15-24 are suppose to be in the future when your character takes her to the ocean, I'm guessing. There is 20 photos of the other girl, Ruri, with 1-10 being I don't even know, casual SFW swimwear that had nothing to do with the game? And 11-20 being her canon outfit. Everything is completely SFW and doesn't have any suggestive images. It's literally like the type of cosplay photos you'd see posted on deviantart or some weeb convention forum site. I was surprised that this was just professional cosplay photos and not fanservice, never bought a cosplay DLC before. Was pleasantly surprised and am glad I was able to support the models and devs.

Would recommend if you want to support the devs or if you're into weeb cosplay, wouldn't recommend if you're a trash goblin looking for JO material.. Stunning Cosplay photos taken by two Cosplay models for Lord Sky Fox and Mori, beautifully done with a high resolution camera to offer as gorgeous photos, real value for money here. Again this item sells so cheap for what it offers, it really is a must have to either complete your bundle or merely support these awesome developers.
